PARAMOUNT COLLECTOR

JUNE 1976

Paramount recently acquired a large group of Mint State 65 Morgan and Peace Dollars from the famous LaVere Redfield Collection which sold for the record price of $7.3 million a few months ago. We have included a listing, with photographs and descriptions, of the dates Paramount has available from this historically important collection in this expanded issue of the *Paramount Collector*. One nice thing about this fantastic group of dollars is the fact that practically every collector or investor can own a specimen as prices for Mint State 65 pieces start at just $12!

We offer a varied selection of choice material from our regular inventory, too! No matter what your needs may be, we are sure you will find something of interest in this *Paramount Collector*.

Some Observations And Comments From Paramount's Rare Coin Department

Are you satisfied with *SECOND* best? Unfortunately, that's probably what you are getting if you shop for price alone without giving any consideration to quality. When you eventually sell your coins, the buyer is not the least bit interested in what you paid – just the quality of your collection.

As a collector, you constantly face the great temptation (and it IS great!) to settle for less than the best because it's easier to take the path of least resistance: that is – buy the cheaper coin – especially if you have looked for such a coin for a few months. Human nature even tells you to refrain from spending more than "seems necessary". A few extra dollars spent, however, just might make all the difference in the world in regard to quality, etc.

Another problem faced by the collector is the desire to buy coins at or below standard catalogue prices, when in fact, catalogue prices *are* inaccurate. All too often, a customer will tell us he will pay catalogue price and NO more. The *plain truth* is: We probably paid well over catalogue price because the coin is actually rarer than the catalogue might indicate. We are not diminishing the standard catalogues. They have a place in the hobby, but they are always months (and sometimes years) old when they reach collectors' hands. The rare coin market changes every day. As a major dealer in rare coins, it is our responsibility to keep abreast of the market on a daily basis. Another thing to consider is the fact that most standard catalogue publishers are *not* in the rare coin business. They rely on panels of dealers to supply them with prices, which are "averaged out" in their catalogues. These "averaged out" prices are often nearly a year old when published!

When buying a rare coin, you should also ask yourself, "What is the reputation of the firm I am dealing with?" If a little known dealer suddenly takes out a full page ad in a numismatic publication and offers lists of "finest knowns", can you really believe it; Or take the dealer who constantly offers coins at bargain prices – are the coins he offers really bargains or optimistically graded (perhaps polished, whizzed and what not) coins? An overgraded coin is *never* a bargain.

Now, when an established dealer, *and there are several,* says the "finest known" in an ad, you should probably listen. Established dealers have been around long enough to know coins inside and out. They can tell you what is available; how it is usually struck; whether the coin has original surfaces or has been cleaned; its true rarity, etc.

Paramount has recognized experts who really know the rare coin market and recognize a "total value" when they see it. Our reputation has been built around "total value" and quality. We firmly believe our customers deserve the very best for the money they spend!

Fortunately, more and more collectors and investors are finally realizing it is better to spend a few extra dollars to get a quality, properly described coin. Paramount offers, and always has offered, conservatively graded coins. We also offer a full SEVEN DAY RETURN or EXCHANGE privilege, if for any reason you are not satisfied with the coins you receive. Very few coins, sold by us, are returned. In a recent promotion, we sold nearly 2,000 1879-S Dollars in MS-65. Only 30 were returned for refund or exchange! The truth is, you can never please EVERYONE, but we sure try!

The rare coin market is very strong right now. After a year of economic recession, more collectors (and investors) are reaffirming their confidence in rare coins. We suggest you buy now, however, as prices on the wholesale level have been

moving upward in recent weeks. Silver Dollars are particularly hot. Nearly every date (including common dates) has increased tremendously in the last two months. Remember, we carry the most extensive inventory of Mint State Dollars in the business. Type coins and scarce date gold are also on the move.

Why not take a few moments to examine the coins offered in this price list. Remember: We *guarantee your satisfaction* or return for prompt refund or exchange within SEVEN days of receipt. All orders are shipped to you, postpaid and insured! In order to avoid disappointment, we suggest you call to reserve the coin(s) you want. Just call 513–836-8641 and ask for the Rare Coin Department. Our switchboard is open from *8 to 5 Eastern Daylight Time, Monday through Friday.* We'll be happy to reserve the coins you want!

1806, 6 Over 5, AU. This overdate is excessively rare in mint state. The specimen we offer exhibits only light wear on the high points. The overdate is very distinct. The stars are well outlined and the strike is nicely centered. 1950.00
1822, BU, Proof-like. A low mintage date with only 64,080 struck. The specimen we offer is an impressive coin with full mirrorlike fields and frosted devices. This piece would certainly please the discriminating quarter collector. 2900.00
1824, Good 42.00

1827, Restrike, Proof. By the late 1850's it was apparent to collectors that the 1827 quarter was an extreme rarity. As a result, Restrikes of this date were made at the mint somewhere around 1858. The Restrikes can be easily distinguished from the Originals because they have a square based 2 in the denomination on the reverse. The Original has a curled base 2. The Restrike offered here is a truly remarkable coin in that it shows absolutely *no traces of die rust.* The only other specimen of the dozen or so existing Restrikes that does not show any signs of rust is in the collection of the late Louis Eliasberg. Like the Eliasberg coin, this piece is struck over an early quarter of the type issued from 1804 to 1807. The undertype can be seen under the arrow's shaft on the reverse and directly above the bust where LIBERTY is clearly visible. It is our belief that it is quite possible that this coin was struck much earlier than the 1858-1860 period generally assumed to be the time when all 1827 Restrikes were made. This assumption is based on the fact that this specimen lacks the die rust which is known on virtually all other known specimens. This coin was formerly in the Will W. Neil Collection sold by the late B. Max Mehl in 1946.

Considering the superb state of preservation and the lack of die rust, as well as its extreme rarity, we feel our asking price is quite reasonable.

MS-65. Fantastic strike and full proof-like surfaces. The head of Liberty and the eagle stand out in bold, frosted relief against the mirrorlike fields. Extraordinary overall appearance. The 1892-S is the second rarest date of the series and only a few specimens the equal of this outstanding piece have appeared on the market in the past few years. We quickly sold the incredible MS-70 1892-S from our last list, and this piece is very nearly its equal. In fact, because of its unusual brilliance and full mirror-like surfaces, this piece may even be

more appealing to many collectors. A real prize for the Morgan dollar specialist.

1881, Gem Proof. A superb example of one of the lowest mintage and most desirable dates in the quarter eagle series. Just 691 total pieces were struck including 51 proofs. This gem was part of the original 1881 gold proof set in the famous Garrett collection until it was purchased by Paramount in March, 1976. Condition wise, it is *perfect* and, in our opinion, is not surpassed by any known specimen.

STELLAS ($4 Gold)

1879, Flowing Hair, Gem Proof. Rich reddish-gold toning and flawless surfaces. This piece is one of the 400 restrikes minted in 1880 at the request of the Coinage Committee. The restrikes were offered to members of Congress and personal or political friends of the Mint at the production cost of $6.50. (When collectors learned of this, they created a furor and eventually the pieces that remained unsold were offered to collectors.) This unusual denomination is one of the most beautiful and popular patterns ever designed. It was created at the request of the Honorable John Kasson and was intended to be the U.S. equivalent of the Austrian 8 Florin piece and several other European gold coins. Pieces similar to this one have auction records as high as $32,000.

1880, Flowing Hair, Gem Proof. A gorgeous, pale golden *gem.* Identical in design to the 1879, although the date is much smaller and slants noticeably up to the right. Reportedly 15 pieces were struck, but actually more specimens are known than that, perhaps as many as 25, and so apparently an additional small quantity was struck sometime in mid-1880 and not recorded. The 1880 is more than 15 times as rare as the 1879 and yet is priced at only twice as much. Stellas are considered by many to be the ultimate in beauty and desirability and the gem pair of Flowing Hair stellas we offer here could certainly not be surpassed in quality. Rarity, beautiful design, historical importance, unique denomination, and superb quality. What more could one ask for? Both of these stellas are museum-quality pieces!

This piece has beautiful deep gold and orange toning and no handling marks to speak of. Attractive and definitely rare!

The hair detail on the head of Liberty and the feather detail on the eagle all stand out in bold relief. The coin has a delicate natural golden toning, and the fields are unusually free of even the faintest bagmarks or abrasion, indicating that the coin has enjoyed fastidious care over the past 150 years. 1904, Choice Proof. Beautiful, deep golden toning and excellent surfaces. Very rare since only 108 proofs were minted and over the years, many of them have been melted, spent (because after issue they were still worth only 50¢ over face), improperly cared for or damaged, or simply lost. Probably less than 50 still exist today that are comparable in quality to this beautiful piece.

CHOICE SETS

A Complete Set of Three Cent Nickels in Proof. This is one of the finest sets of PROOF three cent nickels we have handled in recent years. Included are both the Open and Closed 1873 varieties and the rare 1887/6 overdate! As a whole, this is a *very choice* set. The 1873 Open 3 and 1884 are *very slightly* impaired, however. The rare 1865 is well above average for a proof as are the proof only 1877 and 1878. All 28 coins are mounted in a custom, hard plastic holder for maximum protection. When you consider the *extremely low* mintages of three cent nickels as a series, one can only conclude that this is probably the most underrated series of all U.S. coins!

LaVere Redfield Collection

In this Edition of the Paramount Collector!

LATIN AMERICAN GOLD SPECIAL

Two recent purchases allow us to offer two choice brilliant uncirculated gold coins from two Latin countries: Chile and the Dominican Republic.

The small (18.5 millimeter) 1964 20 Pesos from Chile is a *very new issue for collectors.* As a date, 1964 20 Pesos were unknown until a few months ago when the Central Bank of Chile dug into their vaults and released an unknown quantity of them to the numismatic world. The discovery of this coin is so new that most catalogues don't even list it yet!

The other coin for our special is the 1974 Dominican Republic 30 Pesos which was struck to commemorate the 12th Central American and West Indies games held in Santo Domingo. Mintage was a mere 25,000. These are particularly nice as they are choice brilliant uncirculated and proof-like.

Two nice gold coins from two of our southern neighbors—both at competitive prices! Buy now while gold prices are reasonable! Remember, it wasn't that long ago when gold was selling for over $180 an ounce!

The Silver Wedding Crown

With the issuance of this 1972 Silver Wedding Anniversary Crown, England minted its first silver crown since 1937. This beautiful crown (Twenty-five New Pence in the new decimal coinage) was designed by Arnold Machin with the final approval of Queen Elizabeth II. The proof specimens, of which only 100,000 were struck, are composed of .925 fine Sterling Silver and are housed in a lovely plush royal-green presentation case. We originally purchased several hundred of these scarce crowns and sold out in a very short time. Fortunately, our buyers have been able to locate an additional small quantity and we are again pleased to offer them to our customers.

Silver War Nickel Sets

During World War II, the United States was forced to change the composition of the five cent piece from a nickel and copper composition to a composition of copper, manganese and *silver.* Most of the "war nickels" available to collectors are heavily circulated and with today's high silver value, even the circulated pieces are highly sought by silver speculators and many are undoubtedly being melted. This leaves only a limited number of strictly uncirculated sets available to collectors.

Paramount is pleased to announce we have restocked our "war nickel" inventory and are able to offer 11-piece, Brilliant Uncirculated sets of these highly sought coins. Each set is mounted in a plastic holder for protection and easy display of your coins. Included are these two scarce dates: 1942-P and 1943-D.

Paramount has sold thousands of these attractive sets over the last decade which confirms their popularity. Order your set today as these coins are becoming more difficult for us to acquire in Brilliant Uncirculated with each passing day!

During the later part of 1975, Paramount's President, Max J. Humbert returned from the Soviet Union with an unprecedented "buy" – 300 Brilliant Uncirculated 10 Rouble gold coins! He watched as the seals on the bags were opened and the lustrous 52-year-old coins poured out. The importance of this purchase is strengthened by the low mintage (1.1 million) and the fact that this was the first gold coin ever issued by the Soviet Union. Please don't confuse these original 1923 coins with the recently publicized 1975 "bullion" coins of the same design.

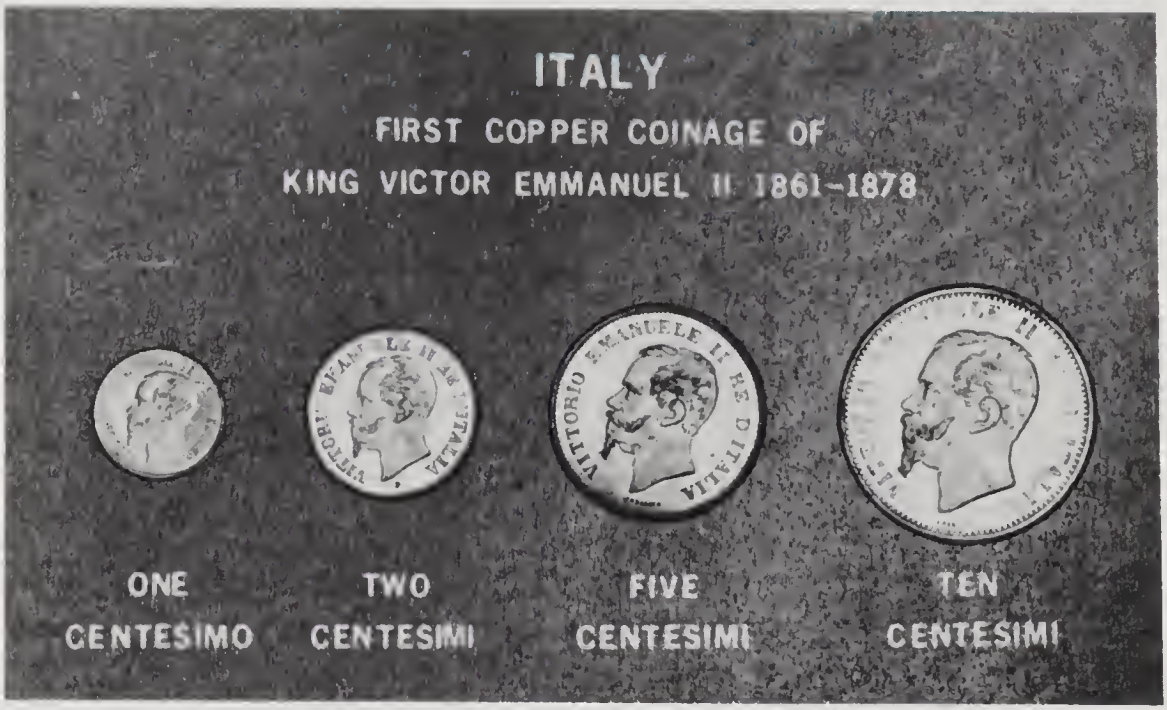
In One Word CHOICE



The Copper Coinage of Vittorio Emanuele II of Italy

Condition is utmost in the World Coin collector's mind as he hunts the specimens he needs for his collection and investors are always on the lookout for top grade coins for their portfolios. To complicate matters, most 19th Century coinage was placed directly into circulation and very few coins remain in their original mint condition today. Consequently, choice material of this type continues to climb in value year after year.

Paramount recently purchased an unbelievably choice group of Italian copper coins, minted in the 1860's. You have to see them to believe them. They still retain their *Original Mint Lustre* and have many proof-like characteristics.

You will receive four different denominations

THE ONLY TWO GOLD COINS FROM ICELAND

Very Limited Mintages!

Iceland issued its very first gold coin, a 500 Kronur piece (mintage: 10,000), in 1961 to mark the 150th Anniversary of the birth of Icelandic statesman Jon Sigurdsson. Sigurdsson was responsible for the adoption of Iceland's new constitution in 1874, giving the country autonomy. Complete independence from Denmark came in 1918, with the Treaty of Union with Denmark, whereby the two countries would function independently but still be loyal to the same king. Although the Treaty of Union expired in 1943, the two countries remain politically "close" but virtually independent of each other.

The second gold coin issued by Iceland was the 1974 10,000 Kronur (mintage: 12,000). This high denomination coin was struck to commemorate the 1100th Anniversary of the first Icelandic settlement. Although many historians admit that the Irish discovered Iceland before 800 A.D., the Norse Viking's explorations, beginning in 874 A.D. led to the first lasting settlements on the near Arctic island.

Both of these coins were issued in very limited quantities. Being the only two gold coins issued to date by Iceland further adds to their collector desirability.

We offer both coins as a pair, or you may purchase single pieces of the 1974 10,000 Kronur. *Single pieces of the 1961 500 Kronur are not available at this time, as our supply of these is very limited.*

A Coin Designed By???

The history behind many of our commemorative coins is fascinating. Take the Wisconsin Territorial Commemorative for instance. In April, 1936, the Wisconsin Centennial Commission selected David Parsons, a Wisconsin art student, to design a commemorative half dollar, legislation for which was pending in Washington. Parsons' completed design was rejected by the mint because its relief was "unworkable". In May, 1936, final authorization was given for the Wisconsin coin. Since the design had been rejected, the Wisconsin Centennial Commission appealed to the Treasury Department for another artist to come up with a workable design. After long consultations, Benjamin Hawkins was selected to design the coin. His final design, however, was very similar to the rejected design submitted earlier by Parsons. As a result, many feel that Parsons should be credited with designing the coin. This controversy continues today! So, as you can see, the stories behind our nation's coinage are often as interesting as the actual collecting of the coins!

Paramount has a small number of brilliant uncirculated Wisconsin Centennial Half Dollars available for just $82.50. That's a savings of $5.50 off our regular price. Only 25,015 of these were issued making it one of the nation's scarcer commemoratives. As always, we assure your complete satisfaction.

1936 Wisconsin Half Dollar (regularly $88) Brilliant Uncirculated **$82.50**

Note: This special price is good only when ordered from this price list and is valid for thirty days or until supplies are exhausted. Thank you.

I just received the book on gold dollars. The book is great, and I have already enjoyed reading through it. I did not have any idea that there were so many dollars issued! I hope that there will be other books of the same type for the other denominations, as they are such beautiful additions to my library.

Thanks again. I am enclosing orders for three more proof sets, and I appreciate you filling them for me.

With all best wishes,

The Proof Gold of Colombia

The 100th Anniversary of the Birth of Guillermo Valencia, the famous poet, was commemorated on these beautiful 1973 Colombian Proof Gold Coins. The set of three coins contains the 1000 Peso with the low mintage of 10,000 pieces and the 1500 and 2000 Peso coins of which *only* 5000 were minted of each. This means that there could only be 5000 complete sets available to proof gold collectors the world over!

Each coin contains .900 fine gold and the three combined have a total of .82 troy ounces of gold. With a current catalogue value of $385 in Robert Friedberg's *1976 Gold Coins of the World,* we feel our price of $295 is quite a bargain.

Each coin is individually housed in its own protective presentation case of issue. Don't be left out, order your set now as gold coins represent one of the best bargains available!

1973 Colombia Gold Proof Set, Three Coins **$295.00**

GOLD SEALS NOW LEGAL!

In 1933 the U.S. Secretary of the Treasury issued an order *prohibiting the ownership of Gold Certificates by any individual for any reason.* The Gold Reserve Act of 1933 required all Americans to surrender these notes to the Treasury Department, where they were destroyed.

The first regular, small size Gold Certificates, Series of 1928, were not actually issued until mid-1929. Since they were issued for such a short time before becoming illegal, very few survive today, especially in fresh, New condition.

In 1964, 31 years later, the Treasury lifted the ban on Gold Certificates – and now you can own one! Each note, with a brilliant gold color seal and serial numbers, reads: *"This certifies that there have been deposited in the Treasury of the United States of America, Twenty Dollars in Gold Coin payable to the Bearer on Demand."*

These very scarce Gold Notes will really attract attention when you display them alongside a Federal Reserve Note with *green* seal and serial numbers; Order yours now!

1928 $20 Gold Certificate, fresh Uncirculated **$120.00**

1928 $20 Gold Certificate, hand-selected. Perfectly centered, Gem **$145.00**

NOTE: STRICT LIMIT OF ONE PER ORDER, PLEASE!

The Country, ROMANIA

The Year, 1867

Carol the First was Prince of Romania and Europe was in a state of turmoil. The Crimean War and conflicts of the 18th and early 19th Centuries had produced many economic problems. In an effort to help stabilize the country's problems, the Romanian government commissioned the famous Heaton Mint of Birmingham, England, to strike its first official coinage. Four denominations of copper coins, the 1, 2, 5 and 10 Bani, were minted and sent directly to Romania and placed in circulation. A very small quantity though, never left England and these are the *Beautiful Original Mint Condition* coins we offer.

We have made up sets of the four different coins and placed them in an attractive display case for our customers. While our limited supply lasts, we offer them at the very reasonable price of only $89.50 a set. If you are interested in *truly choice 19th Century World Coins,* we recommend you place your order today.

1867 Romania 1, 2, 5 and 10 Bani Pieces, Choice Uncirculated, In Holder **$89.50**

The Famous Proof Commemorative Crown of Jamaica

In 1966 the Jamaican Government authorized the minting of this 5 Shilling coin to commemorate the 8th British Empire and Commonwealth Games held in Kingston. Designed by Paul Vincze, *only 20,000 proofs were struck* by the Royal Mint in London. This was the only crown struck for Jamaica while it was still under the Old British Pound Sterling monetary system. With the tremendous increase in demand for World Crowns and especially those recognizing athletic events, these beautiful crowns are sure to become future winners!

UNSOLICITED COMMENTS

"First of all I want to take time out to write you and let you know that since my first order to Paramount I have become a very satisfied customer. I had ordered so-called gem dollars from other dealers who had advertised at prices less than yours but on receiving the dollars, I had noticed the quality of their dollars was far below yours. If your quality continues, Paramount will be sure to have all of my business. At this time, I would like to order the following . . ."

T.R.

"I have recently become a collector and have intentions of putting together a complete set of Morgan and Peace Dollars in MS-60 or MS-65 condition. I have purchased a few coins that I thought were in beautiful condition until I saw a specimen a friend had bought through your company. This will be my first purchase from Paramount and hopefully, I will be able to complete my collection through your company."

Paramount Presents...

A Spectacular Offering of United States Silver Dollars From The LaVere Redfield Collection

Don't Miss Out On This "Once-in-a-Lifetime" Opportunity!

The overall quality of the fantastic LaVere Redfield collection of silver dollars was very high – so high, in fact, that it enabled Paramount to purchase a substantial portion of it! Now, for the first time, we are privileged to offer you select MS-65 or better Morgan and Peace Dollars from this fabulous purchase. We have hand selected each coin to make sure it will meet the demand of the most quality-conscious collector or investor. We have been a major factor in the silver dollar market for years, and we assure you that quality such as is offered here has never been encountered before.

Our buyers, who have purchased hundreds of thousands of mint state Morgan and Peace Dollars, are completely familiar with the characteristics of each date, and know by experience the quality that is usually encountered for each issue. They were truly amazed when they examined the Redfield coins. We have asked them to share with you some of their comments on each date offered. However, no amount of space nor any number of superlatives can convey the same feeling that one gets by holding one of these historic dollars. We hope you choose to see for yourself why we are so excited about this purchase!

The superb coins selected for this list are available in strictly limited quantities on a first-come, first-served basis. Whether or not you have ordered dollars from Paramount before, we urge you to take quick advantage of this opportunity. In fact, if you have never before

bought a dollar from any dealer, now is an excellent time for your initial purchase.

A word about pricing: If, previous to this incredible purchase, we had encountered any of the dollars listed below, we would have gladly paid a price very near to or in excess of the prices we are asking! We are particularly proud of the fact that we can offer such high quality at such reasonable prices. In fact, some of the prices listed are lower than our advertised retail of three months ago! And, without exception, the quality of the coins is higher! Many are even priced below current trends.

Paramount has a reputation for delivering quality dollars, and only a company of Paramount's size and reputation can afford its customers the fantastic opportunity to purchase silver dollars of heretofore virtually unknown quality at prices we consider impossible to match on a price-versus-quality basis. But this opportunity will not last long – act now so that you can take advantage of it! This is definitely a once-in-a-lifetime opportunity!

Please note the substantial savings extended on the dates available in roll quantities. We believe this presents an outstanding chance for the astute investor. And, rest assured that each individual coin and each roll has been carefully examined and approved for sale by the silver dollar experts at Paramount.

Whether you spend $12 or $50,000 on the coins listed, your satisfaction is our main concern. Our grading standards are the highest in the industry. We pioneered the mint state grading system in our auctions in the late 1960's. In 1972, we were first to adopt the mint state grading system for all uncirculated dollars. Many other dealers have now adopted the mint state system for grading dollars, but no-one has met our standards. We invite your comparison! Buy a similarly described coin from another dealer and then buy one from Paramount. We are confident you will see the difference! Always remember: An overgraded, "bargain" priced coin is rarely a true bargain. Only Paramount will give you TOTAL VALUE.

All the coins listed are at least Mint State 65. A Paramount MS-65 coin is of the quality that most dealers call "Gem BU". It is a fully lustrous uncirculated coin with very few bagmarks. A noticeably superior coin to a Mint State 60, with considerably fewer and less severe bagmarks. In most cases, a more sharply struck coin than an MS-60 coin of the same date.

Since quantities are limited, please list second choices where possible. We will ship second choices only in the event that your first choice is sold out when your order arrives.

Some Notes On Mr. Redfield

LaVere Redfield started his working life as a potato digger in Idaho. He was a thrifty man who always looked for bargains, frequently buying real estate and other valuables at tax sales. During the 1920's and 1930's while living in Southern California, he invested his money in "non-worthwhile" stocks that no-one else would buy. It is also reported he would quibble with retailers over a few cents on nearly everything he purchased.

During the depression he moved to Reno, Nevada where he apparently began his famed silver dollar collection. Redfield collected coins by the bag and roll – always with a keen eye for quality. The majority of the 407,000 silver dollars in his estate are Mint State 65, many being fully proof-like!

When Mr. Redfield died in 1974 at the age of 76, few knew the extent of his actual wealth for he hardly had the appearance of a millionaire. His favorite attire included wool shirts and blue jeans. He drove an old dilapidated pickup truck and looked like a hard working silver miner fresh out of the famed Comstock Lode era.

Despite Mr. Redfield's tight ways with money, it was not uncommon for him to pass his days in Nevada's casinos at the roulette wheels.

Last January, his silver dollar collection was sold for the record price of 7.3 million dollars. However, it is estimated that his entire estate, which included extensive real estate and stock holdings, could be worth as much as 200 million dollars.

Don't Be Left Out, Act Today!

Many of the dates offered from the Redfield collection are in extremely limited supply. You may reserve the coin(s) you desire by calling our Rare Coin Department collect at 513–836-8641 between 8:00 am and 5:00 pm Eastern daylight time, Monday through Friday. 1883-S	Extremely scarce in true Mint State. Many AU coins are sold as Uncirculated. The coin you will receive will have full mint bloom and a minimal number of bagmarks. Each coin is superior to any 1883-S we have had in stock in years!	340.00	1625.00	
1885-CC	Please order early if you are interested in this scarce Carson City issue, as our supply is strictly limited.	95.00	467.50	
1886-S	An extremely popular date, and quite scarce this nice.	155.00	750.00	
1887-S	This is a much underrated date and is usually found in MS-60 or lower grades.	59.00	287.50	1095.00
1888-S	The coins of this tough date offered here are incredibly choice – we did not believe that 1888-S's existed this nice!	155.00	750.00	
1889-S	The combination of low mintage (700,000) and high quality creates exciting potential for this issue.	92.00	450.00	1700.00
1890-S	A very underrated date and one that is deceptively difficult to obtain in full MS-65	38.00	185.00	700.00
1891-CC	Virtually no 1891-CC's were sold by the GSA.	75.00	365.00	1350.00
1891-S	A date that falls into the same category as the 1890-S but slightly harder to find.	45.00	220.00	820.00
1892-CC	The coins Paramount offers are full strikes, unlike many 1892-CC's on today's market.	255.00	1200.00	
1893	A low mintage issue that usually is found in MS-65 rather than MS-60.	200.00	975.00	
1893-CC	Relative to what has previously been available, the 1893-CC's are the most outstanding coins from the fabulous Redfield collection. We are pleased to offer sharply struck (full hair, full breast) fully lustrous examples of this key date.	925.00	4400.00	
1895-S	If you think you will ever own a complete set of dollars, or if you think dollars will always be in demand by the collector and investor, you should seriously consider the purchase of an 1895-S.	2100.00		

DATE	COMMENTS	MS-65 1 COIN	MS-65 5 COINS	MS-65 ROLL 20 COINS
	Seldom does an opportunity present unquestionable quality, established demand and a reasonable price. Any superlative falls short of describing these coins.			
1896-S	Another date that often comes weakly struck – but not ours! Order with confidence that you will receive an MS-65 coin that is fully struck with minimal bag abrasions. We guarantee it!	640.00	3150.00	
1897	Did you know the Philadelphia Mint produced fewer dollars this year than either New Orleans or San Francisco? Not expensive, but certainly not a common date.	17.00	80.00	280.00
1897-S	With the 1887-S, 1890-S and 1891-S issues, these intermediately priced Morgans are of outstanding quality and, in our opinion, underpriced.	59.00	285.00	1050.00
1898-S	There are many semi-prooflike coins included in these coins. Many would describe the coins as "Gem PL" and charge a large premium!	165.00	800.00	
1899-S	A key date that usually comes quite nice, but Paramount's coins are even much nicer than normally found!	245.00	1175.00	
1900-S	Order a 1900-S (or any other date) and see if you don't agree that the quality is virtually unimprovable. Many semi-PL's will be sold from this selection. In fact, if you prefer a frosty coin rather than a proof-like coin, you should indicate so on your order.	165.00	800.00	
1902-S	Even more so than most S-mints, 1902-S is notorious for its usual weak strike. Imagine our joy when we discovered some sharply struck specimens! Remember, any coin sold from this list will grade a solid MS-65 by Paramount's standards.	330.00	1575.00	
1926-S	With the strong advance by choice Peace Dollars in recent months, 1926-S has become quite underrated. In fact, it is currently the lowest priced S-mint Peace Dollar, although it catalogues for over 50% more than other more common dates.	38.00	185.00	680.00
1928-S	Very few of these were nice enough to include in this group. Please order quickly if you would like one of these scarce Peace Dollars.	165.00	800.00

A Complete Set of Bicentennial Coins

...in One Package!

To mark our nation's Bicentennial, the United States mint has issued special commemorative Quarters, Half Dollars, and Dollars. Unfortunately, the only way to obtain *every* version of these coins was to buy an assortment of proof sets and mint sets from the mint. Paramount saw a need to offer every combination of these coins to collectors who wish to maintain the "completeness" of their collections. We first offered this set in March and have sold hundreds of them since then. Each set consists of 15 coins mounted in a *hard plastic* custom holder.

You will receive the following 15 coins:

From the San Francisco Mint:

40% Silver Quarter, Proof
40% Silver Half Dollar, Proof
40% Silver Dollar, Proof
40% Silver Quarter, Specimen Unc
40% Silver Half Dollar, Specimen Unc
40% Silver Dollar, Specimen Unc
Copper-Nickel Quarter, Proof
Copper-Nickel Half Dollar, Proof

From the Denver Mint:

Copper-Nickel Quarter, BU
Copper-Nickel Half Dollar, BU
Copper-Nickel Dollar, BU

From the Philadelphia Mint:

Each of these coins is dated 1776-1976. Unless you have ordered *every* possible combination of Bicentennial coins from the mint, you *will not* have a complete set. We are selling the *complete* set and mounting them in a deluxe holder! Remember, Paramount's TOTAL VALUE concept means TOTAL SATISFACTION or return within seven days for an exchange or refund. We guarantee your satisfaction. Why not order several sets to give as gifts to collector friends and relatives?
